URGENT - PLEASE RESPOND IMMEDIATELY

Chemical Spill Response Training for

State of Alabama - City and County Government Employees

Please review the attached information for an upcoming training class to be held on February 7th (Guntersville Area), February 8th (Decatur Area), February 9th (Birmingham Area), February 10th (Montgomery area), and February 16th (Dothan Area).

NEWS FLASH: EPA currently lists 52 Alabama facilities with violations, including a \$954,000 fine at a wastewater plant in October of 2021. Are you ready for an inspection?

Training is required by OSHA and EPA for all state and local government employees that are expected to respond to a chemical spill.

This class is especially important for employees at the following locations due to the chemicals they routinely handle:

Public Works Employees - *Fuel products, anti-freeze, parts cleaners, paints and solvents*

Parks and Recreation Employees - *Pesticide products, fuel products, paints and solvents*

Highway Maintenance Employees - *Paints and solvents, herbicides, and fuel products*

Water and Wastewater Treatment Employees - *Chlorine (both gas and liquified), Propane*

Mosquito Control - *Pesticide products, fuel products*

Solid Waste/Sanitation Employees - *Discarded chemical containers, unknown products*

The registration fee for the course is \$150 per employee, four or more employees are \$125 each. Fee includes all textbooks and other course materials. Payment may be made by government purchase order, check, or credit card.

If you have any questions call Sigma Consulting and Training, Inc. at (863) 232-2910 or e-mail: info@sigmatrainingservices.com

This class is only offered once per year. More than 100 City and County agencies in Alabama have sent their employees to this class in the past.

Training Credit Hours

This class meets OSHA, EPA, and DOT training standards. Also may be used for Continuing Education by ADEM for Water and Wastewater Operators, and approved by the Dept. of Agriculture & Industries for Pesticide Applicators.

Payment is not required prior to attending, but you must register in advance.

Note: If you have at least 20 persons attending, we can hold the training at your own facility for a substantial discount. Call for details at (863) 232- 2910.

Alabama - City and County Employees Chemical Spill Response Training

It's not a matter of *if* a chemical spill is going to occur, it's just a matter of *when*! Chemical handling is a requirement for many jobs in government service. From the variety of paints, solvents, and pesticides, to the fuel products we use everyday. Think about the products we transport on public highways. Even the gasoline or diesel fuel in your vehicle may become spilled in a traffic accident. *Part of being a good manager is making sure things go right on the job, and being prepared in case they don't.*

Also may be used for Continuing Education by the Alabama Dept. of Environmental Management for Water and Wastewater Operators, and by the Alabama Dept. of Agriculture for Pesticide Applicators.

Also satisfies annual refresher requirement for other Hazmat Training.

Do you know the rules?

Last year alone, there were over 30,000 spills large enough to require reporting to the federal government. Failure to make the necessary notifications can result in substantial fines. *Fuel products require reporting in some situations if only one drop is spilled.* Do you know what they are?

A school employee was awarded \$289 million for exposure to chemicals on the job. Do you know what protective gear is required?

An employee placed a zip tie on a fuel dispenser handle, resulting in a \$500,000 cleanup and \$90,000 fine. Do you know the rules that apply?

EPA issued a \$66,000 fine for simply not reporting a chlorine leak. Do you know when you have to notify authorities?

OSHA and EPA strictly regulates who can respond to chemical releases. Without spill response training, your employees will not be allowed to assist you in cleaning up a chemical spill.

The majority of all spills are less than 50 gallons, yet may cost \$10,000 or more to clean up when using an environmental contractor. Most cities and counties have all the necessary equipment, but employees ***must*** have the proper training.

Trained employees can respond in a matter of minutes, instead of hours that most environmental contractors require to get to your site.

Sigma Consulting and Training, Inc., is offering chemical spill response training in your area to prepare your employees to respond to an emergency. The training satisfies the OSHA requirements for emergency responders, and includes eight hours of training covering: Spill response procedures, decontamination, personal protective equipment, respiratory protection, chemical storage and handling, and more.

Registration fee for the course is \$150 per employee, four or more employees are \$125 each. This includes textbooks and handout materials for each student. Laminated wallet card and certificate of training will be provided after the course.

The course instructor is a nationally recognized speaker and has trained employees from more than 300 companies, along with federal, state, and local agencies. These include the U.S. Army and Navy, Kennedy Space Center, and U.S. Dept. of Justice. The instructor also meets "Master Trainer" qualifications with the U.S. Dept. of Homeland Security.
